Janet P. Elsholz Memorial Scholarship

This scholarship has been established in appreciation for the many blessings that L. Edward and Janet P. Elsholz received during the 25 years they were teachers at Marysville High School (1968-1993). They felt privileged to have spent the majority of their careers teaching in a district having a rich history that includes caring and involved parents, pride in school and community, goal oriented, dependable and hardworking students. Students who are mindful of the reputation established over a period of many years by their predecessors.

Mrs. Elsholz taught 9th through 12th grade Mathematics, directed the Michigan Math Prize Competition program for many years and took great pleasure in helping her students on a one to one basis, especially after school. She also coached all three cheerleading squads in her earlier years and enjoyed following the sports programs, especially football and basketball. She believed that dependability and honesty were essential in developing good character and taught by example.

Mr. Elsholz was a Vocational Drafting instructor with the River Area Program (forerunner of the Skill Center (RESA)) He also taught Mechanical Drawing/Architecture at MHS. In later years he also directed the Cooperative Education program at MHS. He also enjoyed following the sports programs and helped the coaches by drawing many of the bracket charts and posters needed for tournaments. Mr. Elsholz also took seriously the responsibility that went along with molding and shaping the lives of his students. He believed in setting the example for students to follow.

Giving back can take many forms and follow different paths. The Elsholzs' desired to establish a long-lasting legacy in the form of scholarships and grants for the benefit of Marysville Public Schools students, well into the future.
